

**RIVERBANK FILTRATION - PRE-CONFERENCE TOUR - JANUARY 18, 2022**  
**WaterOne Collector Well and Well Field**

**Tour Guide:** Hanley Barker, Facilities Engineering Manager, WaterOne

**What we will see:**

- WaterOne utilizes the Kansas and Missouri rivers both via surface water intakes and alluvial groundwater wells. During the tour, we will visit WaterOne's 5.5 MGD Kansas River collector well, vertical well field, and Kansas River intake facility.

**Directions:**

- Meet at Kansas River Collector Well at **3:00 PM**. Map and directions are below and will also be sent to all those who sign-up for the tour. The collector well is a short drive from Hansen Water Treatment Plant, 7601 Holliday Drive, Kansas City, KS 66106.

**Security protocols:**

- The names of tour participants will be provided to WaterOne. Participants must sign-up in advance and **bring ID**.
